## 1.0 BACKGROUND

The DAAAM International was founded and based on the idea and initiative of Professor B. Katalinic, on November 5th, 1990 at the Vienna Symposium, which was organised in order to mark the 175<sup>th</sup> anniversary of the Vienna University of Technology. The purpose of DAAAM International is to provide a world forum for engineers, scientists and industrial managers to present and discuss the current status and impact of advanced manufacturing and automation.

During the last twenty years, the activities of DAAAM International have been supported by scientists and experts from over fifty countries all over the world. In the course of the last decade, DAAAM International has focused activities on the regional and global long-term co-operation between (technical) universities. The result of this initiative is the founding of the University Network of DAAAM International Vienna and DAAAM International Network for Advanced Technologies which was founded on 2002-10-25 in Vienna.

## 2.0 AIMS

The main aims of DAAAM are:

- To organise an annual DAAAM International Symposium each year.
- To found and organise the University Network of DAAAM International Vienna as a strategic alliance and permanent international open platform for long-term co-operation and partnership in all fields of technology, research and education.
- To organise long-term projects, initially known as Inter-university Doctoral Studies
- To organise a pilot project, initially known as the Virtual University.
- To enable and promote the exchange of people, scientific, and technical information.
- To enable and promote international co-operation among scientists and engineers.
- To enable and promote R & D, education and industrial application.
- To co-operate with other national and international organisations in matters of common interest.

**Subject: In memoriam Profesorica Ivana Burdjelez**

Prijateljima,

Čovjek u životu susretne mnogo ljudi, neki prodju poput sjene od koje trenutak kasnije ne ostane nikakovo sjećanje niti trag. S druge strane postoje rijetki ljudi koji se u trenutku upoznavanja čine odnekud tako poznati, prirodni, puni povjerenja i povezanosti, ta poznanstva se pretvaraju u životna poznanstva i suputništvo duša za čitav život. Profesorica Ivana Burdjelez spadala je u ovu skupinu rijetkih, plemenitih i dobrih hrvatskih ljudi.

Moje poznanstvo seže u poratnu 1998. godinu kada smo organizirali prvi veliki međunarodni skup u poslijeratnom Dubrovniku. Te godine smo u vremenu 23-25-og listopada organizirali "The 8th DAAAM International Symposium on Intelligent Manufacturing & Automation" u tek djelomično obnovljenoj zgradi Međunarodnoga centra za poslijediplomske studije, Sveučilišta u Zagrebu. Tim Sveučilišta u Zagrebu je vodio rektor Marijan Šunjić i prorektorice Helena Jasna Mencer i Mirjana Polić Bobić, a u Dubrovniku je Profesorica Ivana Burdjelez sa svojim lokalnim timom u sasvim nenormalnim uvjetima nemoguće stvari činila mogućim.

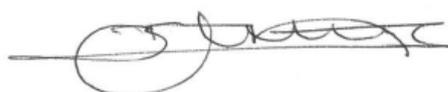

U ime velike međunarodne obitelji DAAAM International koja okuplja trinaestak tisuća profesora, istraživača i znanstvenika iz preko pedeset zemalja svijeta pripala mi je tužna zadaća da kao predsjednik izrazim naša duboka suosjećanja sa svima koji su se nalazili u životnom krugu ozračja naše drage Ivane.

U znak zahvalnosti DAAAM International je odlučio posmrtno odlikovati Profesoricu Ivanu Burdjelez Zlatnom Medaljom za izvanredni doprinos organiziranju međunarodne akademske i znanstvene suradnje u okvirima DAAAM International Vienna.

Mi smo sretni i zahvalni da smo imali životnu privilegiju dijeliti trenutke života, rada i radosti s Ivanom.

Laka joj bila zemlja hrvatska, zemlja dubrovačka.

## **GOLD MEDAL OF DAAAM INTERNATIONAL**

On the occasion of 10<sup>th</sup> DAAAM International Symposium in 1999, DAAAM International introduced the Gold Medal of DAAAM International “for excellence in the science, technology, and international scientific co-operation in the framework of DAAAM International Vienna” as a highest recognition for individual persons and institutions. The medal is designed by B. Katalinic, produced by Moscow State Mint Institute and sponsored by Moscow State University of Technology "Stankin" and Cassandra Trust – Ireland. Maximal one person and/or one institution are honoured by medal in one year.

## **JUBILEE GOLD MEDAL OF DAAAM INTERNATIONAL**

On the occasion of 20<sup>th</sup> DAAAM International Symposium in 2009, DAAAM International introduced the Jubilee Gold Medal of DAAAM International “for excellence in the science, technology, and international scientific co-operation in the framework of DAAAM International Vienna” as a highest recognition for individual persons and institutions. The medal is designed by B. Katalinic and S. Egorov, produced by Moscow State Mint Institute and sponsored by Cassandra Proxy Inc. (British Virgin Islands). This medal is dedicated for the honor of people and institutions for their achievements and contributions to the science and technology and international academic and scientific cooperation and their support of DAAAM activities.

# DAAAM AWARDS

## 1.0 BEST PAPER / PRESENTATION DAAAM AWARD

Since 1999 the DAAAM International Vienna recognizes excellence of contributions in a number of ways. There are three categories for papers:

- Best Paper Award of DAAAM International for the best paper presented at Symposium,
- DAAAM International Award for Best Oral Presentation of Paper,
- DAAAM International Award for Best Visual Presentation of Paper.

The Awards are made at the Closing Section and Best Paper Award Ceremony of the Symposium. The Award Committee of DAAAM International makes the evaluation of presented papers during the Symposium. The final decisions are made by the President of the Award Committee of DAAAM International. Former Presidents of the Paper Award Committee of DAAAM International are: 2008 Professor Cosmonaut and Master of Sport Alexey Eliseev, 2007 Professor Kanji Ueda & Professor Vladimir Filaretov, 2006 Professor Vladimir Filaretov, 2005 Professor Ueda, 2004 Professor Franc Cus, 2003 Professor Jyri Papstel, 2002 Professor Kanji Ueda, 2001 Professor Toma Udiljak, 2000 Professor Jyri Papstel, and 1999 Professor Kanji Ueda. The President and the final list of the members of the Committee will be announced at Opening Ceremony of the Symposium. All (co)authors of awarded papers are getting the certificate, the paper (main author) additionally getting Best Paper Medal. The layout of the Best Paper Medal you can see at the cover of this publication. The papers which authors are member of the Award committee and the papers which are not presented at Symposium are excluded from competition and can not get the Award.

## 2.0 DAAAM INTERNATIONAL YOUNG RESEARCHER AND SCIENTIST AWARD

DAAAM International Vienna wants to recognize excellence of contributions of young researchers and scientists, and their supervisors and mentors. Starting with the 1st European DAAAM International Young Researchers' and Scientists' Conference, and 18th DAAAM International Symposium "Intelligent Manufacturing and Automation: Focus on Creativity, Responsibility and Ethics of Engineers", which are held 24-27th October 2007 in Zadar, Croatia, the best young researchers and scientists will be honoured by "DAAAM International Young Researchers and Scientist Award" Awards are possible in following categories:

Related to:	Categories:
<b>Paper:</b>	Best Paper / Best Oral Presentation / Best Graphic Presentation / Best Poster Presentation / Best Demonstration
<b>Supervisor / Mentor:</b>	Best Supervisor/Mentor / Best Team Manager / Best Project Manager / Best Leader / Best Female Supervisor
<b>Quality of Project / Research:</b>	Best Industrial Project / Best Research Project / Best Application / Best Innovation / Best Theory
<b>Contest:</b>	Interdisciplinarity / European Relevance / Future Oriented / Ethics / Harmony with Nature
<b>Thesis:</b>	Best Bachelors Thesis / Best Master Thesis / Best Diploma Thesis / Best MBA Thesis / Best PhD/Doctor Thesis
<b>Team:</b>	Best Team / Best University Team / Best Firm / Best International Team / Youngest Team

In the case of extraordinary contributions which can not be expressed by above mentioned recognitions is possible to make a Special Award. The Awards are made at the Closing Section of the Symposium. The final decision is made by President of the Award Committee of DAAAM International for actual year. Former Presidents of the Award Committee are recognised international leading experts and professors. All awarded authors and co-authors of paper are getting attractive **DAAAM International Best Award Certificate**. The Award Certificates are personal, very nice professional designed, framed and ready to hang in your room.

**Very Important:** The papers which authors are member of the Award Committee and the papers which are not presented at Symposium are excluded from competition and can not get the Award.

### 3.0 FESTO YOUNG RESEARCHERS AND SCIENTISTS SUPPORT SCHOLARSHIP

Since 2007 concern Festo gives, by courtesy of Dr. Wilfried Stoll, support scholarship to excellent young researchers and scientists to present own research results at European DAAAM International Young Researchers' and Scientists' Conferences, and DAAAM International Symposiums "Intelligent Manufacturing and Automation". This scholarship covers conference fee, accommodation and (partly) travel expenses. Conditions for winning this scholarship are: candidate must come to conference and must present own research results, candidate must have high quality research and presentation, and candidates have to come from different countries. The winners are getting special "Festo Prize" certificate. The awards are made at the closing award ceremony and given by high representative of concern Festo Ing. Wolfgang Keiner, general manager Festo Austria.

2007-2019 Festo Prize Winners are:

#### 4.0 BEST DIGITAL PHOTO DAAAM AWARD

Importance of digital photography for research, publishing and social relations is rapidly increased during last time. For that reason we are going to establish DAAAM International Photo Gallery with photos which are related to the symposium and our activities (place, people, situation, art, special effects). The gallery will be free accessed and searchable. For this project we are looking for amateur photographs among the participants to be official photographs of DAAAM International and member of DAAAM International Photo Team. Digital photos can be given during the symposium to the organizer, or send after symposium by e-mail. All photos which are technically good made will be included in the gallery. On the next symposium the up to three authors of nicest photos will get Best Digital Photo Award.

#### 5.0 BEST TASTE AND SMELL OF DAAAM AWARD

"Best Taste and Smell of DAAAM International": Many of colleagues in DAAAM International network are excellent hobby cooks, liquor maker or winemaker. Each year we are making small tasting of their specialities under the motto "Best taste and smell of DAAAM International". Authors are encouraged to bring some self-made specialities to DAAAM symposium. The best will be honoured with "Best Taste and Smell DAAAM International Award". Due to the internal regulation in Austria Center Vienna in the year 2009 this activity will be not organised.

Jubilee Gold Medal of DAAAM International

## UNIVERSITY CHARTER OF DUBROVNIK

*The text of the University Charter of Dubrovnik:* We, the representatives of different Universities and Institutions, after two years preparation at the meeting initiated and organized by The Danube Adria Association for Automation & Manufacturing, DAAAM International under the auspices of The Danube Rectors' Conference on the occasion of the Eighth International DAAAM Symposium "Intelligent Manufacturing & Automation" held at the International Center of Croatian Universities (University of Zagreb) in Dubrovnik, Croatia, decided to found the University Network of DAAAM International Vienna as a strategic alliance and permanent open platform for long-term co-operation and partnership in all fields of technology, research and education.

The co-operation has to be continuously organized and is based on the partnership, friendship, tolerance, appreciation and positive experience of international scientific co-operation within the framework of DAAAM International during the last eight years. The co-operation can use different flexible forms, structures and aspects. The practical co-operation will be project-based organized. The highest priority is given to the organization of two long - term projects, initially known as: Interuniversity Doctoral Studies and a pilot project Virtual University. Signed by the founding members in Dubrovnik, Croatia, on the twenty-third of October 1997

## **DAAAM INTERNATIONAL NETWORK FOR ADVANCED TECHNOLOGIES**

*The text of the Network founding document:* We, the representatives of different Universities, Institutions, and Firms at the meeting initiated and organized by The Danube Adria Association for Automation & Manufacturing, DAAAM International Vienna under the auspices of The Danube Rectors' Conference on the occasion of the Thirteenth International DAAAM Symposium "Intelligent Manufacturing & Automation: Learning from Nature" held at the Vienna University of Technology and Austrian Society of Engineers and Architects in Vienna, Austria, decided to found the DAAAM International Network for Advanced Technologies as a strategic alliance and permanent open platform within European Research Area for long-term co-operation and partnership in all fields and aspects of research, developing, transfer, education and use of advanced technologies.

The co-operation has to be continuously organized and had to be based on the partnership, friendship, tolerance, appreciation and positive experience of international scientific co-operation within the framework of DAAAM International during the last fourteen years. The co-operation can use individual flexible project oriented forms, structures and aspects and support the young researchers' mobility as well. The practical co-operation will be project-based organized. The highest priority is given to the organization of long - term international cooperation projects focused on advanced technologies for balanced development and harmony between men, technology and nature. The network has to be platform for dissemination of relevant information and ideas, supporting international partnership and encouraging of cooperation initiatives. Signed by the founding members in Vienna, Austria, European Union, on the twenty-fifth of October 2002

**Activity No. 1:** The conference bags and flags for DAAAM 2003 in Sarajevo are sponsored by the Faculty of Textile Technology, University of Zagreb, and organised by Professor Z. Dragecic as the first activity in the frame of DAAAM International Network for Advanced Technologies.

## **DAAAM INTERNATIONAL NETWORK FOR MECHATRONICS AND ROBOTICS**

*The text of the Network founding document:* We, the representatives of different Universities, Institutions, and Firms at the meeting initiated and organized by The Danube Adria Association for Automation & Manufacturing, DAAAM International Vienna under the auspices of The Danube Rectors' Conference on the occasion of the Fifteenth International DAAAM Symposium "Intelligent Manufacturing & Automation: Globalisation - Technology - Men - Nature" held at the Vienna University of Technology and Austrian Society of Engineers and Architects in Vienna, Austria, decided to found the DAAAM International Network for Mechatronics and Robotics as a strategic alliance and permanent open platform within European Research Area for long-term co-operation and partnership in all fields and aspects of research, developing, transfer, education and use of advanced technologies.

The co-operation has to be continuously organized and had to be based on the partnership, friendship, tolerance, appreciation and positive experience of international scientific co-operation within the framework of DAAAM International during the last fifteen years. The co-operation can use individual flexible project oriented forms, structures and aspects and support the young researchers' mobility as well. The practical co-operation will be project-based organized. The highest priority is given to the organization of long - term international cooperation projects focused on advanced technologies for balanced development and harmony between men, technology and nature. The network has to be platform for dissemination of relevant information and ideas, supporting international partnership and encouraging of cooperation initiatives. Signed by the founding members in Vienna, Austria, European Union, on the fifth of November 2004

# DAAAM INTERNATIONAL BOOKS

The DAAAM International initiated publishing of books in the field of advanced manufacturing and automation. There are three series: "Manufacturing technology", "DAAAM International University Book" and "Management Sciences". Till now the following books are published:

## DAAAM Publishing series - Manufacturing technology:

1. **Joze Balic:** "*Contribution to Integrated Manufacturing*", DAAAM Publishing series - Manufacturing technology, Editor: B Katalinic, ISBN 3-901509-03-8, DAAAM International Vienna, Vienna 1999
2. **Borut Buchmeister:** "*English-Slovene Glossary of Terms used in Production Engineering and Production Management*", DAAAM Publishing series - Manufacturing technology, Editor: B Katalinic, ISBN 3-901509-17-8, DAAAM International Vienna, Vienna 2000 (Promotion at DAAAM 2000 - Opatija)
3. **Joze Balic:** "*FMS: Development Structure, Operation, Handling, Tooling*", DAAAM Publishing series - Manufacturing technology, Editor: B Katalinic, ISBN 3-901509-20-8, DAAAM International Vienna, Vienna 1999
4. **Joze Balic & Niko Majdandzic:** "*Digit@l F@ctory*", DAAAM Publishing series - Manufacturing technology, Editor: B Katalinic, ISBN 3-901509-67-4, DAAAM International Vienna, Vienna 2008

## DAAAM Publishing series - University Book:

5. **Vlado Majstorovic:** "*Upravljanje proizvodnjom i projektima – Production and Project Management*", (in Croatian) DAAAM International University Book, Editor: B Katalinic, ISBN 3-901509-23-2, DAAAM International Vienna and University of Mostar, Mostar – Vienna, 2001 (Promotion at International Conference in Mostar, May 31st, 2001)

# DAAAM INTERNATIONAL SCIENTIFIC BOOK

## Background and Mission

The members of world wide DAAAM international community expressed the need for one flexible publishing platform for the presentation of own actual (international) research projects, recent results, and technical solutions. To fulfil this need in the frame of the DAAAM International publishing activities we started in 2002 new periodical edition known as DAAAM International Scientific Book. This is the open series for the publishing of the most recent research results and international projects from all technical fields and scientific disciplines which are in the field of interest of DAAAM International. Actuality, competence, team work, interdisciplinary and international cooperation are the main characteristics of this initiative

## Concept

The main concept of this edition is: One contribution is one chapter in the Scientific Book. The size of the contribution can be extended in such way that the authors have enough space to present and explain background, project, ideas, results and future work.

## Review Procedure

Manuscripts are subject of the following review procedures:

- (a) It is reviewed by editor for general suitability for this publication.
- (b) If it is judged suitable two reviewers are selected and a double blind review process takes place.
- (c) Based on the recommendations of the reviewers, the editor then decide whether the particular manuscript should be accepted as it is, revised or rejected.

## Crossreferencing

2006 DAAAM International is a member of CrossRef. DOI Suffix of DAAAM International is: 10.2507 Abstracts of all contributions published in DAAAM International Scientific Book since 2006 are crossreferenced and permanent available on Internet!

## Bibliographic Databases

DAAAM International Scientific Book (ISSN 1726-9687) since 2009 is included in EBSCO and GALE Cengage bibliographic databases.

## Welcome Letter

It is my pleasure to welcome you at the 31st DAAAM International Symposium and 9th DAAAM International Doctoral School. DAAAM International Network is a large international network which brings together thousands of researchers and scientists during the last thirty-one years. We want to keep and increase the high quality of our activities that is the reason why we are continuing our international project for support development of doctoral students called "DAAAM International Doctoral School".

It is nice to welcome you as guest and member of our large family. From the very beginning of our activities in the year 1990 we are following idea of: (a) Balance between technology and nature; (b) Conference on the measure of men; (c) Partnership and cooperation and not colonialisms, and (d) Tolerance, tolerance and tolerance

I hope that you already found old friends and partners, and I wish you to make new friends for many of years coming.

I wish you success and nice time in magic city of Mostar

*Branko Katalinic*

## Background

The success of mankind civilization is based on science and technology. The main megatrend in the science is specialization which can be expressed with words “to know more and more about less and less”. Augmentation of complexity is dominating trend in the development of technology, this trend directly increases fragility and decrease robustness of modern machines and systems. Modern society is closely connected and very dependent on modern technology. All those machines and technologies are developed by engineers, but the role and influence of engineers in the development of the society is continuously decreasing. This process was supported by education of engineers which is focused on narrow technical specialization excluding historical contest, scientific and academic space and state of modern society. Only high level engineers with deep understanding and creativity are able to develop modern sophisticated technical products and technologies. Doctoral studies are highest level of education of engineers. This is based on specialization and focus on small fields. The results are specialists ("Fachidiot") as excellent engineers. Modern society needs additional competences from engineers.

We need:

1. Person with critical orientation in the historical context of the development of the science and technology
2. Person within the scientific and academic space
3. Personalities with character and ethics
4. International networking as a individual and as a part of the team
5. Close cooperation with industry
6. Development of characteristics and abilities of engineers for knowledge based society
7. Philosophy of technology, developing scenarios and trends.
8. Philosophical approach for engineers
9. Others

DAAAM International Doctoral School is focused on support of the development of doctoral students in the direction to develop competence in those fields.

### **How**

International doctoral school will use following working forms: lectures, tutorials, demonstrations, coaching, privatisimus, practical skills and critical discussions.

### **Program and scheduling**

All selected candidates and professors will personally get detailed program and scheduling.

### **Conditions:**

1. Candidate must be doctoral (PhD) student in engineering
2. Must be author of a paper at DAAAM-2017, he must present the paper at the conference and must pay conference fee.
3. At least one letter of recommendation for International Doctoral School from doctor father or expert in the field is needed.
4. Program, accommodation, food and services of International doctoral school are free of charge for all participants. Accommodation will be organized in **Hotel Kolovare** ([http:// http://www.hotel-kolovare.com](http://www.hotel-kolovare.com))

### **Diploma**

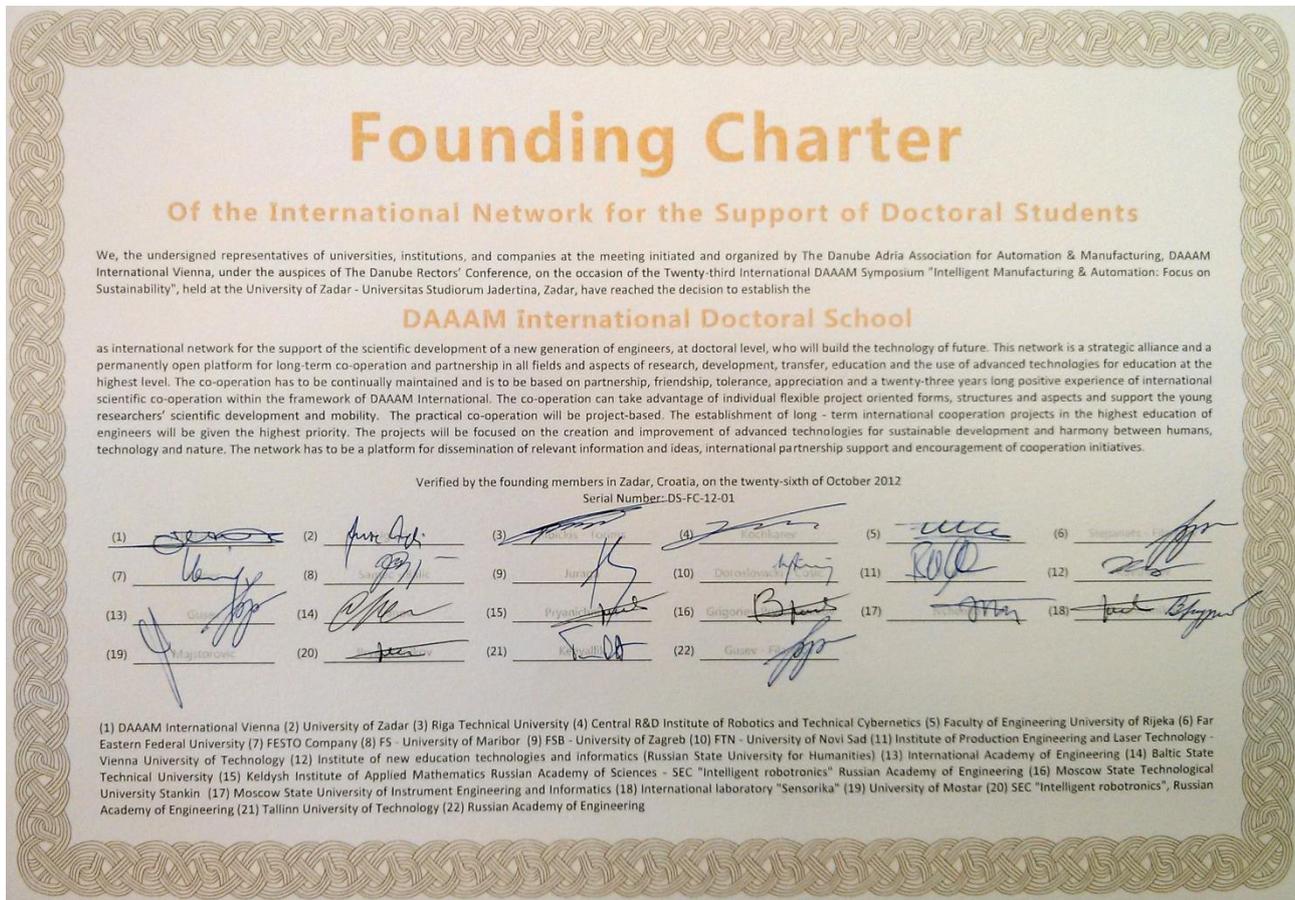

Successful participants will receive Diplomas and Diploma Supplement at the end of the Doctoral School from the University of Vienna and DAAAM International. Diploma includes 4 ECTS credit points and will be signed by President of DAAAM International and representatives of all universities and institutions who are co-organizers of 6<sup>th</sup> International Doctoral School. The list of students' contributions including presentations and exams as well as list of all involved professors and their contribution will be listed.

### **International Doctoral School Professors (List is tentative!)**

- Bielic Toni, University of Zadar
- Bleicher Friedrich, Vienna University of Technology
- Celar Stipe, University of Split
- Cosic Ilija, University of Novi Sad
- Covic Dragan, University of Mostar
- Drstvensek Igor, University of Maribor

- Kusiak Andrew, University of Iowa
- Kuvshinov Sergei, Russian State University for Humanities
- Marcos Mariano, University of Cadiz
- Otto Tauno, Tallinn University of Technology
- Park Hong-Seok, University of Ulsan
- Poduraev Yuri, Moscow State Technological University Stankin
- Pryaninchnikov Valentin, Russian Academy of Sciences, KAIM
- Sikic Zoran, University of Zadar
- Stazhkov Sergej, Baltic State Technical University
- Stopper Markus, MKW GmbH
- Takakuva Soemon, University of Nagoya
- Torims Toms, Riga Technical University
- Udiljak Toma, University of Zagreb
- Uglesic Ante, University of Zadar

## Founding Chapter

22 Institutions agreed to found permanent International Network for Support of Doctoral Students under the name "DAAAM International Doctoral School" This network is open for new members. If your organization is interested in these activities you are welcome to join us 1<sup>st</sup> Version of Founding Charter was signed on 26th October 2012.

# DAAAM INTERNATIONAL SYMPOSIUMS (1990-2020)

One important activity is organising the DAAAM International Symposium. The main objective of the Symposium is to provide a world forum, which takes place annually in Central Europe to exchange knowledge, experience, results and information related to various aspects of the advanced manufacturing and modern automation.

The scope of the Symposium covers scientific, technological and practical concepts concerning research, development and realisation of advanced manufacturing and automation concepts, offering a unique opportunity for experts to meet and exchange ideas. The Symposium is concerned with the current status of automation and manufacturing, methods and results of research and development, as well as application problems and publishes proceedings accordingly.

## DAAAM INTERNATIONAL WORKSHOPS "COMPUTER AIDED SYSTEMS AND TECHNOLOGIES"

This workshop is based on the bilateral co-operation between two similar departments of the Faculties of Mechanical Engineering of the University of Zilina, Slovakia and Cracow University of Technology - CUT, Cracow, Poland. Those activities are supported by DAAAM National Organisations of Poland and Slovakia, and DAAAM International. In order to install this workshop as stabile long-term regional platform for the *CA Systems and Technologies* fields it was decided to found:

### Permanent Committee of Workshop:

Permanent Members:

**Ivan Kuric**

*University of Zilina, Zilina,  
Slovakia*

**Branko Katalinic**

*Vienna University of Technology and  
DAAAM International, Vienna, Austria*

**Jan Duda**

*Cracow University of
